I Did It!

"The Medical Assisting Program at Tunxis was one of the best experiences of my life. After many years of contemplating a career change, I finally took a leap of faith and entered the program. From my first phone call for information to post graduation, the support the Tunxis administrators and program educators have provided has been phenomenal. High expectations, excellent academic curriculum, and extraordinary supportive staff are the cornerstones in the program's success and that of its graduates."

-Cecile McLaughlin,
Class of July 2015
Medical Assistant, UCONN Health, Storbury, CT

HEALTH CARE CAREERS

Health Care Career Programs

WIOA Information: Tunxis Continuing Education offers a number of Workforce Innovation and Opportunity Act (WIOA) approved programs that are funded through the American Job Center, New Britain. Call 860.899.3500 to learn more.

Students who have successfully completed the Medical Assistant, Medical Administrative Assistant, Patient Care Technician, Phlebotomy Technician, Pharmacy Technician, CNA, and/or EKG and Pulse Oximetry Skills Programs are **eligible to receive college credit through the Connecticut Credit Assessment Program administered by Charter Oak State College.**

Credits may be used at Charter Oak State College or transferred to another school by setting up a credit registry with Charter Oak. (Any transfer credit is at the discretion of the institution.)

<http://www.charteroak.edu/current/programs/creditregistry.cfm>

Please be advised that if you have been convicted of a felony or misdemeanor, you may not be eligible for clinical experiences, internships, externships or certifications associated with certain health care careers courses or programs. Those with previous convictions may also find it difficult to secure employment within a health care setting.

Required for all Health Care Career Programs: Essential Job Skills & Career Development Course

This 14-hour course is designed to aid students in successfully transitioning into their chosen careers. Emphasis will be placed on the development of a resume, essential interview skills, and soft skills to give students the tools to secure and retain employment. Students will engage in mock interviews to develop these skills. Guest speakers will cover topics such as “what makes a successful employee” and “how to ensure a good interview.” Team building, conflict resolution in the workplace and providing quality customer service will also be covered. Note: Bring USB drive and resume to class.

July 10–24 (T); 9AM-12:30PM
4 sessions
Fee: \$175

August 7–28 (T); 5:30-9PM
4 sessions
Fee: \$175

Instructor for both sessions: Karen Lyga, CMAA

NEW Program! Massage Therapy

Massage therapy is one of the fastest growing and most diverse occupations in the health care industry. This 16-month program prepares you for work in health clubs, gyms, day spas, corporate settings, massage clinics, with chiropractors, or own your own business. Massage therapists treat clients by using touch to manipulate the muscles and other soft tissues of the body. With their touch, therapists relieve pain, help heal injuries, improve circulation, relieve stress, increase relaxation, and aid in the general wellness of clients. Students who complete this program will be prepared and eligible to take the national licensure exam (MBLEx). The MBLEx (Massage & Bodywork Licensing Examination) is governed by the Federation of State Massage Therapy Boards (FSMTB). It is designed to provide a standard examination for students of massage for entry-level professional scope of practice in gaining licensure.

Program starts June 5, 2018, three evenings per week, 5-9PM

Instructor: Sue Passini, LMT

Payment Information

Total program cost includes tuition, administrative fee, textbooks, MANDATORY clinical internship, and uniforms is \$9,200. Not included is the MBLEx examination and licensing fees. Payment plans are available.

Contact Information

For more information, please contact Sue Passini at 860.773.1457 or spassini@asnuntuck.edu.

Required for all Health Care Career Programs: Essential Job Skills & Career Development Course

HEALTH CARE CAREERS

Registered Medical Assistant Program

WIOA approved

Medical assistants are in demand. Learn office procedures and everyday tasks MAs perform in doctors' offices, clinics, and hospitals.

This program includes computer skills; therapeutic communication skills; anatomy & physiology; clinical office procedures; phlebotomy & pharmacology; electronic health records; financial management; health care insurance processing; billing and coding; medical law & ethics; medical office procedures; and medical terminology. Students who complete this program are prepared and eligible to take the American Medical Technologists' RMA National Examination.

- Classroom instruction and lab groups are held at the college
- Clinical externships are held at physicians' offices and clinics within our college service area
- Program runs every spring and fall

**Next Program starts
Tuesday, September 11**

Total cost for the Medical Assistant program is \$8,075.

- Total cost includes tuition, administrative fee, books, uniforms, CPT NHA and AMT examination fees.
- A payment plan is available.

Contact Information

For more information or to register, contact Shaina Hamel, CPT, RMA, LPN, at 860.773.1454, shamel@tunxis.edu or Cheryl Conaty, RN at 860.773.1453, cconaty@tunxis.edu.

Certified Medical Administrative Assistant Program

WIOA approved

Play a key role in running a medical office. This 5-1/2 month Medical Administrative Assistant program prepares you for the vital duties of the front office, from scheduling appointments and billing insurance companies to handling patient records.

This program includes medical terminology; medical office procedures; health care insurance processing, billing and coding; electronic health records; computer skills; financial management; customer service; medical law & ethics; HIPAA rules and guidelines, and risk management. Students who complete this program are prepared and eligible to take the National Healthcareer Association CMAA Examination.

- Clinical externships are held at physicians' offices and clinics within our college service area
- Program runs every spring and fall

**Next Program starts
Monday, September 10**

Total cost for the Medical Administrative Assistant program is \$4,145.

- Total cost includes tuition, administrative fee, books, and NHA examination fee.
- A payment plan is available.

Contact Information

For more information or to register, contact Cheryl Conaty, RN, at 860.773.1453 or cconaty@tunxis.edu.

EKG & Pulse Oximetry Skills

For allied health professionals looking to add to their skill set, this course includes classroom and hands-on experience. Learn basic skills in administering a 12-lead EKG and pulse oximetry measurement. It is appropriate for nurse aides and those preparing for patient care technician (PCT) positions. **Please note: This course does not prepare you to become an EKG technician.** You must attend all sessions to receive a certificate of completion. Handouts for course will be provided.

**May 31 – July 5 (TH);
5:30 – 8:30PM (no class June 21)
5 sessions – 1.5 CEUs
Fee: \$299
Room: 202
Instructor: Mark Rouleau, R.N.**

HEALTH CARE CAREERS

Certified Phlebotomy Technician

WIOA approved

This 120-hour program provides classroom theory and clinical lab instruction. An externship experience at UConn Health Center or Bristol Hospital will also be required. Arrangements are made by the classroom instructor and the Allied Health Coordinator. Students who complete this program are prepared and eligible to take the National Healthcareer Association CPT Examination.

Day Program

June 4 – Aug. 1 (M/T/W); 9AM – 2PM (no class July 2-4)

Instructor: Patty Blatherwick, CPT

Evening Program

June 4 – Aug. 28 (M/T/W); 5:30-9:15 PM (no class July 2-4, 23-25)

Instructor: Clare O’Gorman, CPT

Payment Information

Total cost for the Phlebotomy Technician program is \$2,889. Total cost includes tuition, administrative fee, books, uniforms, externship, Essential Job Skills & Career Development Course, and NHA CPT examination fee.

- \$8 parking fee per day if externship is at UConn Health Center.
- A payment plan is available.

Contact Information

For more information or to register, contact Cheryl Conaty, RN, at 860.773.1453 or cconaty@tunxis.edu.

The Essential Job Skills & Career Development course is **REQUIRED** to receive a certificate of completion for the Phlebotomy program and will be offered in the day or evening.

See page 5.

Veterans’ Funding Available

BLS CPR for Health Care Professionals (American Heart Association)

Designed for health care professionals who respond to cardiac and respiratory emergencies, this three-hour course covers one-and two-person rescuer — adult, child and infant CPR, Foreign Body Airway Obstruction, and the AED. Cost includes textbook, course completion card and exam.

**July 20 (F); 9AM – 12PM
Fee: \$100**

New! Heartsaver CPR AED (American Heart Association)

A 2-3 hour course designed to teach lay rescuers (security guards, personal trainers, church organizations, teachers, etc.) how to recognize and treat life-threatening emergencies, whose job requires a course completion card documenting one rescuer adult and/or pediatric CPR, Foreign Body Airway Obstruction, and AED training. Cost includes: Student textbook, practical exam, and course completion certificate.

**July 20 (F); 12:30-3:30PM
Cost: \$75**

NEW!

Medical Billing and Coding - ONLINE

Medical practices rely on medical billers and coders to provide the cash flow that keeps their doors open. Positions are also available with ambulatory care centers, medical equipment suppliers, insurance companies, public health agencies, consulting firms, and medical billing companies.

Course material includes: abstracting from medical records, assigning codes to diagnoses and procedures using the ICD-9-CM, ICD-10-CM, CPT and HCPCS Level II code books, developing insurance claims according to third-party guidelines, and understanding the legal, ethical and regulatory concepts that are vital to this field.

Upon completion, students will be prepared to take the Certified Billing and Coding Specialist (CBCS) exam, offered by National Healthcareer Association (NHA), and will receive the study guide materials, access to practice exams, and exam registration fees. Students will also be prepared to sit for the Certified Professional Coder (CPC) exam, offered by the American Academy of Professional Coders (AAPC).

Note: It is recommended that you have knowledge of medical terminology, including anatomy and physiology (available from ed2go.com/tunxis). In order to sit for national certification exams, candidates must have a high school diploma or GED (recommended prior to enrollment).

This 240-hour program has open enrollment so you can start anytime!

**To register for the class visit:
ed2go.com/Tunxis**

EMT Training

Call 860.314.4700 to register for all EMT classes below.

EMT Basic

The curriculum prepares you to take the exams to become nationally registered and state of Connecticut certified at the basic level. Lectures, demonstrations and hands-on training provide the knowledge and skills required for certification. Students must complete the 10 clinical hours with Bristol EMS. There are no prerequisites for this course, but you must be at least 16 years of age.

Exam fees of \$100 and \$80 are paid by student directly to the state of Connecticut and the National Registry.

Be advised that long-term EMT training is intensive in nature and will require a commitment of time and energy on your part. It is your responsibility to make time in your life to successfully complete the course and pass all certification requirements.

**June 6 – Aug. 20 (M/W)
6 – 10PM Plus select Saturdays
Fee: \$799 (includes text, CPR manual, and stethoscope)
Location: Tunxis@Bristol,
430 North Main Street, Bristol
Instructor for all classes: Sharon Kenney and Staff**

EMT Basic Refresher

This program is accelerated over four days to fast-track your recertification process. If you are current with your CPR, you are excused from the Thursday class – proof of certification must be provided prior to the start of class.

**June 6 (W); 12 noon – 4PM & (TH, F, S); 8AM – 4PM
Fee: \$245**

For more information or to register, call 860.314.4700, email tx-bcc@tunxis.edu, or fax 860.606.9722.

Central Sterile Processing Technician – next Program starts Thursday, September 13.

- Program runs every spring and fall

Certified Nurse Aide (CNA)

Classes Begin Friday, June 1

WIOA approved

CNAs are in demand and our students have great success with job placement! All of our program options are approved by the CT Department of Public Health and lead to state certification. The state examination is taken at the College.

CNA Program Options

- Day, Evening and Saturday Programs

Total cost for the CNA program is \$1,579.

- Total cost includes tuition, administrative fee, books, uniforms, Essential Job Skills & Career Development course, and CNA registry fee.
- A payment plan is available.

Contact Information

For more information or to register, contact Cheryl Conaty, RN, at 860.773.1453 or cconaty@tunxis.edu.

The Essential Job Skills & Career Development course is REQUIRED to receive a certificate of completion for the Certified Nurse Aide program and will be offered in the day or evening. See page 5.

For more information or to register, call 860.314.4700, email tx-bcc@tunxis.edu, or fax 860.606.9722.

Please be advised that if you have been convicted of a felony, you may not be eligible for clinical experiences, internships, externships or certifications associated with certain health care careers courses or programs. Those with previous convictions may also find it difficult to secure employment within a health care setting.

Certified Pharmacy Technician

*WIOA approved
Veterans' Funding Available*

This 60-hour program prepares you for an entry-level position in a hospital, community or mail order pharmacy. Topics include medical terminology; reading and interpreting prescriptions; and defining drugs by generic and brand names. Students will learn dosage calculation; I.V. flow rate; drug compounding; and dose conversion. Dispensing of prescriptions, inventory control, billing, and insurance reimbursement will also be discussed. Students must attend at least **90%** of the course to receive a certificate of completion. Course prerequisite: basic fluency in both math and algebra. Students who complete this program are prepared and eligible to take the Pharmacy Technician Certification Board Examination (PTCB).

**June 4 - Aug. 15 (M/W);
6 – 9PM, (no class July 2-4)
Instructors: CT Pharmacy
Association**

Payment Information

Total cost for the Pharmacy Technician program is \$1,524.

- Total cost includes tuition, administrative fee, books, Essential Job Skills & Career Development course and the PTCB examination fee.
- A payment plan is available.

Contact Information

For more information or to register, contact Cheryl Conaty, RN, at 860.773.1453 or cconaty@tunxis.edu.

COMING SOON PHARMACY EXTERNSHIP!

Need a math refresher? See "Medical Math" on page 10

**The Essential Job Skills & Career Development course is REQUIRED to receive a certificate of completion for the Pharmacy Technician program and will be offered in the day or evening.
See page 5.**

Certified Patient Care Technician (CPCT)

WIOA approved

PCTs are valuable members of the health care team. Doctors, nurses and other health care professionals rely on them to assist with critical day-to-day care. PCTs have a diverse range of knowledge and skills such as:

- Providing basic patient care — bathing, feeding, turning and repositioning, transfers, patient care set-up
- Acquiring, distributing and administering patient care supplies
- Performing safety checks and ensuring cleanliness in patient rooms and areas
- Assisting patients with special needs
- Obtaining EKG readings and monitoring vital signs
- Performing phlebotomy procedures
- Providing emotional support to patients and families

Launch your career in the medical field! Take courses at your own pace. Work in hospitals, rehabilitation facilities, clinics and nursing homes.

To earn the PCT certification from Tunxis, you must successfully complete the following programs at the college within two years:

- Certified Nurse Aide program or provide proof of current CNA certification or LPN licensure
- Phlebotomy Technician program (must be taken at Tunxis).
- EKG & Pulse Oximetry course (must be taken at Tunxis).
- BLS CPR for Health Care Professionals (must be taken at Tunxis).

Students who complete this program are prepared and eligible to take the National Healthcareer Association CPCT Examination.

Payment Information

Total cost for the PCT program is \$4,552. Without the CNA Program, cost is \$3,153.

- Total cost includes tuition, administrative fee, externship, books, uniforms, Essential Job Skills & Career Development course and examination fees.
- \$8 parking fee per day if externship is at UConn Health Center.
- A payment plan is available.

Contact Information

For more information or to register, contact Cheryl Conaty, RN, at 860.773.1453 or cconaty@tunxis.edu.

The Essential Job Skills & Career Development course is REQUIRED to receive a certificate of completion for the Patient Care Technician program and will be offered during the Phlebotomy Program.

Caregiver Training

This course is designed to prepare individuals to work as caregivers in the home setting. The concept of a medical home is one of several emerging trends in medicine. This training will cover the necessary information and skills needed to deliver safe and competent care. Lecture topics will include common disease processes, environmental hazards and safety, identifying health changes, the importance of communications, ethics, emergencies, basic food preparation, and home management. Personal care procedures will be practiced in a lab setting.

July 10 – 31 (T); 6 – 9PM

Cost: \$279

Room: 202

Instructor: Barbara Korza, RN

Medical Math “Ed2Go” Online Course

Master medical calculations online. Gain the medical math skills you need to do anything from calculating dosages to using scientific formulas. Review fractions, decimals, and percentages, and then cover the measurement systems and conversions used in the medical field. Learn to do real-world dosage calculations for oral, parenteral, and intravenous medications. This course is an excellent review for those planning to take the Pharmacy Technician program.

**Six weeks – Offered online
monthly**

Fee: \$119

ed2go.com/tunxis

NEW!

Physical Therapy Aide ONLINE

Are you seeking a career in the fast-growing, high-demand field of health care? In this program, you can gain the skills and information you need to get a job as a physical therapy aide.

You will learn what physical therapy entails and explore the different roles of physical therapists, physical therapy assistants, and physical therapy aides. Discover how therapists evaluate and treat patients and see how PT aides assist them in their important work; learn how to communicate effectively with patients and colleagues and how health care professionals document the treatments they provide. Principles of ethics and law as they apply to the health care field and anatomy and physiology will also be covered.

You will receive tips for finding a job in the health care field. You do not need any special certification to become a physical therapy aide, so by the time you complete this program, you will be fully prepared to jump into your new career!

This 150-hour program has open enrollment so you can start anytime!

To register, visit

careertraining.ed2go.com/tunxis

NEW!

Certified National Pharmaceutical Representative - ONLINE

The CNPR Program was developed in partnership with the National Association of Pharmaceutical Sales Representatives (NAPSR). This unique training program will prepare you for a new career as a pharmaceutical sales representative and for national certification through NAPSR. As a registered student of the CNPR program, you'll automatically become a member of NAPSR, and you'll be eligible to sit for the CNPR national certification exam at no additional cost.

The CNPR is a federally trademarked certification you can earn by demonstrating the necessary knowledge in pharmacology, medical terminology, physiology, and regulations for selling pharmaceuticals. The CNPR examination is dedicated to increasing the professional level of NAPSR members and to developing meaningful and ethical standards fully accepted by both its members and members of the pharmaceutical community.

Students should be proficient in keyboarding, have a basic understanding of a word processing computer program (Microsoft Word recommended), and have a command of English grammar and punctuation. No health care or medical-office work experience is required.

This 90-hour program has open enrollment so you can start anytime!

Fee: \$1,795 includes text

**Coming
Soon!**

Tunxis will offer several advanced manufacturing programs this fall to meet industry demand for skilled workers.

Associate Degrees

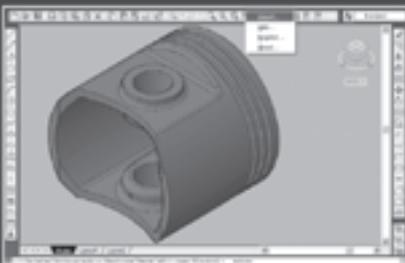

- Technology Studies: Machine Technology Option

The Technology Studies Machine Technology curriculum provides a comprehensive education in engineering technology, industrial technology, mathematics and sciences, as provided by the standard Technology Studies program, but with a focus on machine technology.

Students who successfully complete the program can continue their studies at Central Connecticut State University's School of Technology, Charter Oak State College and other universities.

-Technology Studies: Manufacturing Electro-Mechanical Maintenance Technology

Coursework provides a comprehensive foundation in electromechanical, industrial and engineering technologies, electronic controls, mathematics and physical sciences for continuation in a four-year technology degree program. Students who successfully complete the program can continue their studies at Central Connecticut State University's School of Technology and pursue degrees in engineering technology, industrial technology or technology education at other universities.

There are a variety of career options for graduates, including electromechanical systems repair, electronics research and development; robotics and automated systems analysis; controls systems technician, and electronics systems installation, maintenance and repair.

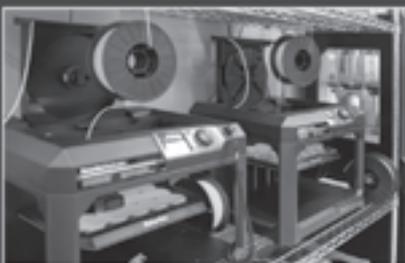

Certificates

-Advanced Manufacturing Machine Technology

The objective of the certificate program is to provide essential skills and knowledge to individuals seeking a background in the machine technology profession.

Credits earned can be used for transfer into the Tunxis Technology Studies: Machine Technology Option associate degree program, and pathway to enter CCSU's School of Technology, or other university programs.

-Manufacturing Electro-Mechanical Maintenance Technology

This certificate provides the skills necessary for several diverse fields including manufacturing, health industry, distribution systems, machining and engineering.

Electromechanical knowledge and skills can be applied to a variety of fields such as engineering, design, manufacturing, machining and troubleshooting and repair of computer directed machines and equipment.

The College of Technology of Technology

Manufacture Your Future

The College of Technology provides seamless career pathways for students to earn certificates, associate of science and bachelor of science degrees in engineering and technology disciplines, with no loss of credit upon transfer.

The Regional Center for Next Generation Manufacturing (RCNGM) is one of seven National Science Foundation

(NSF) Advanced Technological Education Centers in the United States. The RCNGM is led by the College of Technology at Tunxis Community College, a consortium of all 12 CT Community Colleges and eight public and private universities.

For more information on the College of Technology, contact:

Karen Wosczyzna-Birch at 860.723.0608, or kwosczyzna-birch@commnet.edu

Or visit - WWW.NEXTGENMFG.ORG
